Back From Babylon

By: Joe Buchanan

We gotta get down, down, down, down.... (x4)

We're coming back from Babylon,
Everybody come along
Get your food to go
Go and get your things
And your people and your dreams
It's time we go and hit that road

We been gone, we been gone
Yeah we're gone far too long
Though the living ain't been bad,
It ain't the honey that we had
It's time for us to go on home

(Chorus)

We did wrong, we did wrong
No, we couldn't get along
And the keys were handed in
To the one who said I am
In the ground we buried our song

(Chorus)

Yeah the land of Hashem,
It'll be our home again
Though the river saw us weep
For the trouble that we reaped
Well the promise is unbroken, amen

We gotta get down, down, down, down.... (x4)
